## And What Have You

By BOB CRAIG

Congressman Omar Burleson was in town last week visiting before the start of the next session of Congress. He says that he is looking forward to this next session and feels that it will be a little more sane in its approach to legislation.

He admits that he is the underdog in his effort to get the democratic seat on the House Ways and Means Committee. He is being opposed by a New York liberal.

We hope that he is successful in his bid for this post because it is important to the State of Texas as a whole and will benefit our district, too.

Received a note this week from State Representative Elect Frank Calhoun of Abilene, who will serve District 62-F, Haskell, Jones and Taylor Counties. He has been attending a series of orientation and briefing sessions around the state over the past few months getting ready for the January 10 opening session of the Texas Legislature.

In commenting on the two-day School of Orientation in Austin conducted by House Speaker Ben Barnes, Calhoun said, "This orientation session should save us at least two weeks of work once the session begins. Much of the organization work, which consumes the first few weeks of each session, has already been accomplished. Speaker Barnes is to be commended for his efforts in getting the House off to a running start."

In his note Calhoun added, "We are in for a stormy session with most problems arising out of money — or the lack of it. Much emphasis will be placed on water, industrial development, education, brush control, tourist development, traffic safety and some form of relief for our cities in their search for new sources of tax revenue."

It is probably a good thing that the legislature will be getting a running start on this up coming session because we suspect that it will be a long, stormy one at best.

Along this time of year seems that every column writer is supposed to suggest all of the New Year's resolutions that his readers should make. But we would suggest that you just dig out last year's and dust them off and try again if you are like most of us.

The Neindra Philosopher in his New Year's letter, takes an unterrified look at the year ahead. Since he does not seem quite as confused as usual we will loan him this space to expound his theory on the new year.

Dear editor:

According to a New Year's prediction I read in a newspaper last night as I was gathering my strength to face 1967, the next twelve months are fraught with peril, with no end in sight of war, inflation, high taxes, toppling governments, traffic deaths, hunger among millions, new riots, improved old riots, Fidel Castro, Ho Chi Min, etc., and the next morning I showed it to a neighbor and asked him what he thought.

"That fellow's right," he said. "We haven't got a chance."

I didn't argue with him, but his trouble is he takes the common view that man is supposed to operate the world, whereas I discovered a long time ago it's the other way around, the world operates man.

On that basis, we've got as much chance in 1967 as the world has ever given us, and I've never yet heard of a year that, once it got started, didn't finally end, and as soon as that one ended, another one commenced.

If I was in the calendar business I'd go ahead with plans for bringing out the 1968 issue, the 1969, 1970, etc., although just to be on the safe side there's no use in stockpiling too far ahead, there's no way really of knowing what the Chinese are planning.

However, it's the only world we've got and generally it seems to do all right, so much so that I predict that the main ambition of the first man to land on the moon will be to get back to earth, inflation and all.

The fact that nobody knows what 1967 holds for him is no cause for concern. At least it doesn't bother me. I'm not too sure what happened in 1966. If you ever find out, let me know.

Yours faithfully,  
J. A.

## TWO YEAR PERIOD—

### Criminal Proceeding Show Drop In 104th District Court

Criminal proceedings in 104th District Court at Anson showed a decided drop in the two-year period ending Aug. 31, 1966, as compared to the same period for the previous two years.

### Safety Association Challenges Texas Motorists to Cut Death Toll

Austin — The Texas Safety Association today issued a "New Year's Accidental Death Alert" and challenged Texas drivers to help "score a point for safety" in the weekend traffic countdown.

The needless loss of life, disabling injuries and suffering caused by traffic accidents can be avoided," S. Ross Carr of Houston, TSA President said. "But, it will take the cooperation of every driver to do so."

He urged every driver to accept personal responsibility for his actions in traffic.

"Put all your driving skills to work, obey traffic laws, drive soberly and be courteous as well as cautious," he said.

"Help make the weekend traffic countdown — a count-

down of lives saved. Score a point for safety."

Past experience indicates that same 36 persons will be killed in traffic accidents in Texas this weekend. Other lives may be lost in accidents in the home or public places.

The TSA "New Year's Accidental Death Alert" begins at 6 p.m. Friday, December 30, and ends at 11:59 p.m. Monday, January 2, 1967. It coincides with the period set by the Texas Department of Public Safety for "Operation Deathwatch."

The Association joins the DPS, the Texas Highway Department and other groups in coordinated safety programs aimed at reducing accidental deaths during the holiday period.

## SYLVESTER NEWS...

By Mrs. R. M. Babb  
Another Christmas has come and gone and a New Year is just around the corner. Have we achieved what we had hoped? If not, may we work just a little harder this year and see how we come out.

There were many visitors in our town over the weekend and many that I know nothing of for I am still having to stay pretty close to home as the bone hasn't knitted as it was supposed to in my shoulder. The collar bone is doing fine, but will have to wear this sling for two more weeks.

In the W. B. Brown home over the weekend were: Mr. and Mrs. Max Deel and children of Levelland, Mr. and Mrs. Bill Brown and children of Lubbock, Mr. and Mrs.

The bride was graduated from Hamlin High School and is employed by Hamlin Hospital Management, Inc.

He is a graduate of McCauley High School and is attending Cisco Junior College.

## FAIRVIEW NEWS...

By Mrs. Elmer Joiner  
It looked as if the weather was going to be real summery for Christmas, but a cold front blew in just in time to make it nice and zippy for old Saint Nick to make his rounds. No rain or no snow, it must have been pretty hard for his reindeer to make the trip in the dust, in this part of the country, but up north they are having snow, so they might have been glad to reach a warmer climate. Their sleigh must have been pretty heavy, for it seems as if the old fellow was very good to most folks this year.

Since we did not have services Sunday, did not see too many people from out this way and didn't learn too much Fairview news. The annual Christmas tree was held at the church last Wednesday night, with our usual little bunch. Rev. Pattillo was ill and unable to attend but his wife and children came from Abilene.

Mr. and Mrs. Flavil Homes had their Christmas Saturday, since Mr. and Mrs. Jimmy Holmes and Melody, could only be here for that day. Mr. and Mrs. Jack Wright, Melinda, Keanan and Randy, from Abilene, completed the family. Jimmy and Linda were in a hurry to get back to Big Spring, we may have to reason why by next week.

Sunday, Mr. and Mrs. Flavil Holmes, went to Abilene to spend the day with the Jack Wrights.

The Joiner family spent Christmas day in the home of Mr. and Mrs. J. E. McCoy, of Hamlin. When the family gathered Sunday morning, gifts were distributed from the Christmas tree and at the noon meal oodles of food was served buffet style, to twenty people. Turkey, ham, taters and every thing that goes with the day, was on hand to be eaten. Those enjoying the day were, Mr. and Mrs. Buck Joiner, Charles, Jerry and Susan, from Odessa; Mr. and Mrs. Jimmy Joiner, Mr. and Mrs. Woodrow Goodwin, Linda, all of Hamlin; Paul Frazier, Dyess Air Base, whose home is in Pennsylvania; the hosts, Mr. and Mrs. McCoy and Larry.

Mr. and Mrs. Charlie Durham only had part of their family this year, since shortage of time and bad weather, kept some of them away. The center of attraction at their home was tiny little Donna Ann Hollaway, three week old daughter of Mr. and Mrs. Donnie Hollaway, of Irving. Their only son, John T. Durham, was marooned by several feet of snow in Indianapolis, Ind. Other children present besides Mr. and Mrs. Hollaway, Beverly and the wee one, were the Buck Joiners, Odessa, and the Troy Rodgers, also of Odessa.

The families living on the farms of Mrs. D. J. Herbst honored her Thursday night, with the annual supper, in her home. Mrs. Mel Jones was also present.

Mrs. Mel Jones spent Christmas in Abilene, with her children, the Rex Joneses.

Mrs. Herbst was a Saturday night visitor in the Flavil home. They living at her home place, it must seem just a little bit more like Christmas, where she and Mr. Herbst lived so long, before he passed away.

Just another reminder to the Fairview church members, please make every effort to be on hand next Sunday, January 1st. If you haven't been coming, do try to be there, because there will be business to attend that all members should have a vote.

PENLIGHT USEFUL — Handy around camp—and a big help to the fisherman too—is a small penlight. Hang it on a cord around your neck. Then you always have a light, but you don't lose a hand holding it. Real handy when it comes to tying on hooks, swivels, lures, etc. at night. In such cases fishermen often place the penlight in the mouth of the rays go directly where they are looking.

In the E. C. Kiser home on Sunday were the Cecil Kiser Sr. family, Cecil Kiser Jr. family and the Joe Brown family.

Mrs. M. E. Tanner of Abilene spent the Holidays in her daughter's home, the Kenneth Leverett's. On Sunday they all ate dinner with the Stanley Jackson's of Neindia.

## STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

Austin — Massive state governmental spending proposals — each ranging around the \$4,500,000,000 mark overall for the next fiscal period — are on their way to Texas legislators.

Legislative Budget Board unveiled its 1968-69 budget recommendations last week, followed a few days later by the somewhat-larger appropriations request of Gov. John Connally.

LBB calculated spending approved by board members would come to some \$4,400,000,000 — \$834,800,000 from general revenue over which the Legislature has direct control.

Connally's budget suggestions topped \$4,600,000,000 — \$911,400,000 in general revenue.

Present all-funds spending (including federal aid and earmarked categories such as for highways, schools and welfare) is \$3,900,000,000 — \$621,500,000 in general revenue.

Judiciary: (Present) \$12,400,000; (LBB) \$12,700,000; (Connally) \$13,100,000.

Legislative expense: (Present) \$6,400,000; (LBB) \$6,900,000; (Connally) \$7,400,000.

Departments and agencies: (Present) \$111,000,000; (LBB) \$139,300,000; (Connally) \$176,500,000.

Support soon came from an unexpected source. Rev. R. W. Jablonowski Jr. said he intends to testify for the bill because he feels states where liquor is sold by the drink have less alcoholic consumption and less public drunkenness.

Texas Council of Churches likely will take no stand, a headquarters official said, because it is "split down the middle" on the issue. Its legislative statement of policies says the organization opposes any change in law which would encourage increased liquor consumption.

Old Production Booms — Railroad Commission boosted January oil allowable to a near-record 37.5 per cent of

Board's proposals could be financed easily without resort to new taxes.

Connally would require some \$64,400,000 in additional revenue, according to his projections of \$847,000,000 income — \$76,600,000 more according to the LBB income estimate. But the governor almost certainly will recommend some additional spending in his message to the Legislature.

Here's a capsule comparison of the general revenue budget:

Public health, hospitals and youth institutions: (Present) \$149,500,000; (LBB) \$206,500,000; (Connally) \$214,700,000.

Departments and agencies: (Present) \$111,000,000; (LBB) \$139,300,000; (Connally) \$176,500,000.

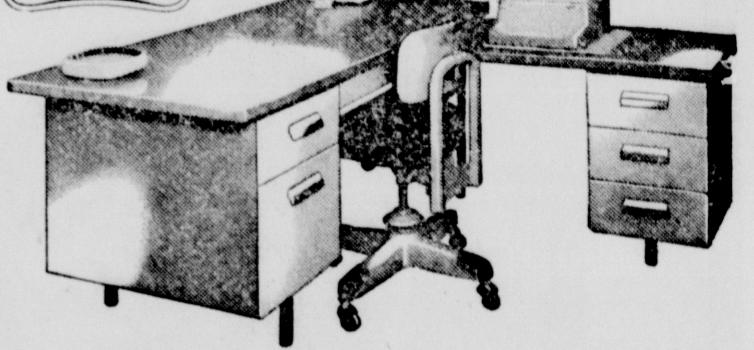

Artful use of vinyl-clad steel on drawer fronts and back panels adds distinctive tones and textures. Desk above with roomy 60 x 30 top and 38 x 19 typing return, includes two pedestals and center drawer.

potential.

Factor would allow 3,318,234 barrel-a-day production. This compares to 3,206,044 daily under the 36.5 per cent for December which was the biggest since May, 1959.

Tuition Hike Asked — Doubled tuitions for Texas college students was recommended by the higher education Coordinating Board.

Agent Warns of  
Lice Infestations  
On Livestock

POSTMASTER WARNS—

**Federal Law Sets Heavy Penalty  
For Damage to Mailboxes**

County stockmen are being advised by county agent Kirby Clayton to be on the lookout for lice on their livestock. These pests can reduce profits and increase feeding costs for the winter unless they are controlled, he added.

Livestock producers were reminded that copies of MP-69, "Texas Guide for Controlling External Parasites of Livestock and Poultry" are available at the county agent's office in the court house.

The publication contains information on insecticide formulations and how to use them for controlling external livestock and poultry parasites. It contains a dilution chart for mixing sprays and dips and outlines control programs for beef animals and nonlactating dairy cattle, dairy animals, sheep, goats, swine, horses and poultry.

Lice infestations spread more rapidly when livestock are confined to smaller areas, and if allowed to multiply, can materially affect the general well-being of the herd, points out the county agent.

If markets existed Texas could produce 4.5 million barrels a day more than present demand.

"Pranksters — and especially

ly children who do not know any better — should be made to realize the seriousness of their actions," the Postmaster said. "A \$1,000 fine or jail term is enough to take the humor out of any prank."

Often the mailbox damage is the work of youths, who do it for "kicks." And the courts have shown little sympathy for this youthful means of expression. In Michigan, a justice sentenced two 18-year olds to 10 days in jail, including two on a diet of baby food. The diet specifications, explained the judge, was because the youths "acted like babies." They also fined \$25 each plus restitution or restoration, plus no driving for an indefinite period, plus an 8 p. m. curfew, plus a written analysis by each of a magazine article "A Judge Gets Tough on Hoodlums."

Two Iowa youths who damaged 39 mailboxes were required to personally apologize to each boxholder in addition to making repairs or providing a new box.

In Missouri, three 17-year olds lost their driving privileges, were given a 9 p. m. curfew, and had to report twice weekly to juvenile authorities. They had damaged 63 mailboxes.

And in Arkansas, four juveniles faced the following: (1) no driving until further notice, (2) a 10 p. m. curfew, (3) return to court in a month with letters from their school principals reporting on grades and attitudes, (4) full restitution of all damages, and (5) wear a sign for 30 days stating "I have not learned to respect the property of others."

NEWS AND VIEWS . . .

**And What Have You**  
By BOB CRAIG

Congressman Omar Burleson was in town last week visiting before the start of the next session of Congress. He says that he is looking forward to this next session and feels that it will be a little more sane in its approach to legislation.

He admits that he is the underdog in his effort to get the democratic seat on the House Ways and Means Committee. He is being opposed by a New York liberal.

We hope that he is successful in his bid for this post because it is important to the State of Texas as a whole and will benefit our district, too.

Received a note this week from State Representative Elect Frank Calhoun of Abilene, who will serve District 62-F, Haskell, Jones and Taylor Counties. He has been attending a series of orientation and briefing sessions around the state over the past few months getting ready for the January 10 opening session of the Texas Legislature.

In commenting on the two-day School of Orientation in Austin conducted by House Speaker Ben Barnes, Calhoun said, "This orientation session should save us at least two weeks of work once the session begins. Much of the organization work, which consumes the first few weeks of each session, has already been accomplished. Speaker Barnes is to be commended for his efforts in getting the House off to a running start."

In his note Calhoun added, "We are in for a stormy session with most problems arising out of money — or the lack of it. Much emphasis will be placed on water, industrial development, education, brush control, tourist development, traffic safety and some form of relief for our cities in their search for new sources of tax revenue."

It is probably a good thing that the legislation will be getting a running start on this up coming session because we suspect that it will be a long, stormy one at best.

Along this time of year seems that every column writer is supposed to suggest all of the New Year's resolutions that his readers should make. But we would suggest that you just dig out last year's and dust them off and try again if you are like most of us.

The Neinda Philosopher in his New Year's letter, takes an untrified look at the year ahead. Since he does not seem quite as confused as usual we will loan him this space to expound his theory on the new year.

Dear editor:

According to a New Year's prediction I read in a newspaper last night as I was gathering my strength to face 1967, the next twelve months are fraught with peril, with no end in sight of war, inflation, high taxes, toppling governments, traffic deaths, hunger among millions, new riots, improved old riots, Fidel Castro, Ho Chi Min, etc., and the next morning I showed it to a neighbor and asked him what he thought.

"That fellow's right," he said. "We haven't got a chance."

I didn't argue with him, but his trouble is he takes the common view that man is supposed to operate the world, whereas I discovered a long time ago it's the other way around, the world operates man.

On that basis, we've got as much chance in 1967 as the world has ever given us, and I've never yet heard of a year that, once it got started, didn't finally end, and as soon as that one ended, another one commenced.

If I was in the calendar business I'd go ahead with plans for bringing out the 1968 issue, the 1969, 1970, etc., although just to be on the safe side there's no use in stockpiling too far ahead, there's no way really of knowing what the Chinese are planning.

However, it's the only world we've got and generally it seems to do all right, so much so that I predict that the main ambition of the first man to land on the moon will be to get back to earth, inflation and all.

The fact that nobody knows what 1967 holds for him is no cause for concern. At least it doesn't bother me. I'm not too sure what happened in 1966. If you ever find out, let me know.

Yours faithfully,  
J. A.

## Safety Association Challenges Texas Motorists to Cut Death Toll

Austin — The Texas Safety Association today issued a "New Year's Accidental Death Alert" and challenged Texas drivers to help "score a point for safety" in the weekend traffic countdown.

"The needless loss of life, disabling injuries and suffering caused by traffic accidents can be avoided," S. Ross Carr of Houston, TSA President said. "But, it will take the cooperation of every driver to do so."

He urged every driver to accept personal responsibility for his actions in traffic.

"Put all your driving skills to work, obey traffic laws, drive soberly and be courteous as well as cautious," he said.

"Help make the weekend traffic countdown — a count-

down of lives saved. Score a point for safety."

Past experience indicates that same 36 persons will be killed in traffic accidents in Texas this weekend. Other lives may be lost in accidents in the home or public places.

The TSA "New Year's Accidental Death Alert" begins at 6 p.m. Friday, December 30, and ends at 11:59 p.m. Monday, January 2, 1967. It coincides with the period set by the Texas Department of Public Safety for "Operation Deathwatch."

The Association joins the DPS, the Texas Highway Department and other groups in coordinated safety programs aimed at reducing accidental deaths during the holiday period.

## SYLVESTER NEWS...

By Mrs. R. M. Babb

Another Christmas has come and gone and a New Year is just around the corner.

Have we achieved what we had hoped? If not, may we work just a little harder this year and see how we come out.

There were many visitors in our town over the weekend and many that I know nothing of for I am still having to stay pretty close to home as the bone hasn't knitted as it was supposed to in my shoulder. The collar bone is doing fine, but will have to wear this sling for two more weeks.

In the W. B. Brown home over the weekend were: Mr. and Mrs. Max Deel and children of Levelland; Mr. and Mrs. Bill Brown and children of Lubbock; Mr. and Mrs.

Larry George was best man. The bride wore a white satin formal length gown overlaid with white lace. The long lace sleeves came to points at the wrists. Her bridal bouquet was of white carnations.

Mrs. George wore a street length dress of blue wool.

Mrs. Sauls was hostess for the reception that followed. Members of the immediate families attended the wedding and reception.

## FAIRVIEW NEWS...

By Mrs. Elmer Joiner

It looked as if the weather was going to be real summery for Christmas, but a cold front blew in just in time to make it nice and zippy for old Saint Nick to make his rounds. No rain or no snow, it must have been pretty hard for his reindeer to make the trip in the dust, in this part of the country, but up north they are having snow, so they might have been glad to reach a warmer climate. Their sleigh must have been pretty heavy, for it seems as if the old fellow was very good to most folks this year.

Since we did not have services Sunday, did not see too many people from out this way and didn't learn too much Fairview news. The annual Christmas tree was held at the church last Wednesday night, with our usual little bunch. Rev. Pattillo was ill and unable to attend but his wife and children came from Abilene.

Sunday, Mr. and Mrs. Flavil Holmes, went to Abilene, to spend the day with the Jack Wrights.

The Joiner family spent Christmas day in the home of Mr. and Mrs. J. E. McCoy, of Hamlin. When the family gathered Sunday morning, gifts were distributed from the Christmas tree and at the noon meal oodles of food was served buffet style, to twenty people. Turkey, ham, taters and every thing that goes with the day, was on hand to be eaten. Those enjoying the day were, Mr. and Mrs. Buck Joiner, Charles, Jerry and Susan, from Odessa; Mr. and Mrs. Jimmy Joiner, Mr. and Mrs. Woodrow Goodwin, Linda, all of Hamlin; Paul Frazier, Dyess Air Base, whose home is in Pennsylvania; the hosts, Mr. and Mrs. McCoy and Larry.

The families living on the farms of Mrs. D. J. Herbst honored her Thursday night, with the annual supper, in her home. Mrs. Mel Jones was also present.

Mrs. Mel Jones spent Christmas in Abilene, with her children, the Rex Joneses.

Mrs. Herbst was a Saturday night visitor in the Flavil home. They living at her home place, it must seem just a little bit more like Christmas, where she and Mr. Herbst lived so long, before he passed away.

Just another reminder to the Fairview church members, please make every effort to be on hand next Sunday, January 1st. If you haven't been coming, do try to be there, because there will be business to attend that all members should have a vote.

PENLIGHT USEFUL—Handy around camp—and a big help to the fisherman too—is a small penlight. Hang it on a cord around your neck. Then you always have a light, but you don't lose a hand holding it. Real handy when it comes to tying on hooks, swivels, lures, etc. at night. In such cases fishermen often place the penlight in the mouth of the rays go directly where they are looking.

Agent Warns of  
Lice Infestations  
On Livestock

County stockmen are being advised by county agent Kirby Clayton to be on the lookout for lice on their livestock. These pests can reduce profits and increase feeding costs for the winter unless they are controlled, he added.

Livestock producers were reminded that copies of MP-691, "Texas Guide for Controlling External Parasites of Livestock and Poultry" are available at the county agent's office in the court house.

The publication contains information on insecticide formulations and how to use them for controlling external livestock and poultry parasites. It contains a dilution chart for mixing sprays and dips and outlines control programs for beef animals and nonlactating dairy cattle, dairy animals, sheep, goats, swine, horses and poultry.

Lice infestations spread more rapidly when livestock are confined to smaller areas, and if allowed to multiply, can materially affect the general well-being of the herd, points out the county agent.

If markets existed Texas could produce 4.5 million barrels a day more than present demand.

#### POSTMASTER WARNS—

### Federal Law Sets Heavy Penalty For Damage to Mailboxes

Mailboxes are protected by Federal law, and pranksters or vandals who damage or destroy the boxes and their contents may be in for a heavy fine or imprisonment, Postmaster Sparks warned today.

The Postmaster noted that come 25,000 mail receptacles were damaged or destroyed in the past year. It was also noted that 2,641 persons were arrested in the year up to June 30 for damaging or destroying mail receptacles.

Postmaster Sparks quoted from the law: "Whoever willfully or maliciously injures, tears down, or destroys any letterbox or other receptacle intended or used for the receipt or delivery of mail on any mail route, or breaks open the same or willfully or maliciously injures, defaces or destroys any mail deposited therein, shall be fined not more than \$1,000 or imprisoned not more than three years."

This applies to all mail receptacles and the mail in them, even though the boxes are bought by citizens and are their personal property, Postmaster Sparks emphasized.

"Pranksters — and especially

children who do not know any better — should be made to realize the seriousness of their actions," the Postmaster said. "A \$1,000 fine or jail term is enough to take the humor out of any prank."

Often the mailbox damage is the work of youths, who do it for "kicks." And the courts have shown little sympathy for this youthful means of expression. In Michigan, a justice sentenced two 18-year olds to 10 days in jail, including two on a diet of baby food. The diet specifications, explained the judge, was because the youths "acted like babies." They also fined \$25 each plus restitution or restoration, plus no driving for an indefinite period, plus an 8 p.m. curfew, plus a written analysis by each of a magazine article "A Judge Gets Tough on Hoodlums."

Two Iowa youths who damaged 39 mailboxes were required to personally apologize to each boxholder in addition to making repairs or providing a new box.

In Missouri, three 17-year olds lost their driving privileges, were given a 9 p.m. curfew, and had to report twice weekly to juvenile authorities. They had damaged 63 mailboxes.

And in Arkansas, four juveniles faced the following: (1) no driving until further notice, (2) a 10 p.m. curfew, (3) return to court in a month with letters from their school principals reporting on grades and attitudes, (4) full restitution of all damages, and (5) wear a sign for 30 days stating "I have not learned to respect the property of others."
